

FUSIC Course– Lung, Abdomen, Vascular and DVT

Be at the Forefront of Medicine

Bedside ultrasound gives physicians an advantage in making critical decisions without the delay of imaging diagnostics or laboratory testing.

Now identified as an essential skill and included in the training curriculum from the core training years. Join our **Intensive Care Society approved** FUSIC course to brush up your skills, refresh your knowledge and further integrate ultrasound into your clinical practice.

Who Are We?

Learn from Leading Acute, Emergency and Intensive Care Ultrasound Specialists

Who Should Attend?

This course is designed for you if you are an Acute, Emergency or Intensive care physician including junior trainee, higher speciality trainee, advanced care practitioner, trust grade doctor or consultant.

This course will also brush up your skills and refresh your knowledge if you already use ultrasound in your clinical practice.

The Course

Format

Learn through hands-on scanning, image interpretation, case discussions, and evidence review.

- Hands-On Learning: Practice with real-life cases, live models and ultrasound Bodyworks simulator
